Patient Testimonials

2013-2014

Everybody is so nice.

January, 2014

"Everybody is so nice. As busy as they are, I didn't feel rushed. I had their undivided attention. They made me feel like I was the only patient in the office. It's evident that they really care about their patients."

Edna M.

Everyone has always been so caring and professional.

December, 2013

I have been a patient at OUR FAMILY DOCTORS for the past 17 years. Everyone has always been so caring and professional. I can't imagine a better group of practitioners. I have referred several of my family members and friends to the practice, and that alone is the best recommendation I can give.

I'm part of the "Family"

January, 2014

I have been a patient of OFD for 3 years. I love the fact that when I walk in the office they know my name and treat me like I'm part of the "Family". The care I get from the practitioners is exceptional and the staff is always friendly and professional. I know that the entire staff actually CARES about my well being.
